5 June 1968

MEMORANDUM FOR: Deputy Chief, Recruitment Division, Office of
Personnel

SUBJECT: Aerial Photographs 25X1A

REFERENCE: Memo from Mr. [REDACTED] D/OP, Requesting
Aerial Photographs, 13 May 1968

1. The Office of Basic and Geographic Intelligence is not able to provide the aerial photographs for Dr. Forejda of the Central Connecticut State College as requested in the referenced memorandum.

2. There are, however, several places where aerial photo material is available for this type of request. The following suggestions are offered:

a. The U.S. Geological Survey has material available at a minimal cost. A request for a "Key Map", which indicates the photos available, should be addressed to Mr. J. O. Kilmartin, Chief, Map Information Office, U.S. Geological Survey, Washington, D. C. 20242

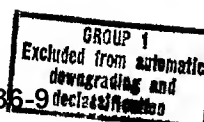

b. The American Society of Photogrammetry, 105 North Virginia Avenue, Falls Church, Virginia, 22046, provides films and manuals for academic purposes. A letter to the Executive Director will establish what material is available for student training.

c. The Graduate School, U.S. Department of Agriculture, Washington, D.C., offers several courses in photogrammetry. The following instructors at the School might offer some assistance, if requested:

1. Mr. Roy Mullen
2. Mr. Rupert B. Southard
3. Mr. Dean T. Edson
4. Mr. Morton Keller

CONFIDENTIAL

d. An inquiry to the Armed Forces Air Intelligence Training Center, Lowry Air Force Base, Denver, Colorado, might provide some additional assistance, inasmuch as the photogrammetry training of Armed Forces personnel is carried on at this base.

3. I hope the above information will be of some assistance to you and Dr. Perejda.

JAMES A. BRAMMELL
Director
Basic and Geographic Intelligence
